Overview of the California Resiliency Alliance’s Information Sharing

Situation Briefs/Notices: These briefs provide situational awareness information around specific events and hazards. Their issuance may be 1) event driven such as for PSPS events, earthquakes, or floods; or 2) recurring such as with the wildfire, infectious disease, and drought updates.

Resource Collection Briefs: These briefs bring together collections of resource and reference links around specific topics and are designed to support planning, preparedness, and mitigation activities.

Information Briefs: These briefs provide members with more in depth information on specific issues and/or evolving threats that may impact California in the future.

Incident Resource Webpages: These webpages bring together resource links, maps, and social media feeds for specific incidents. They can be accessed either via our homepage or the general Incident Resources Page.

Quick Links Webpages: These are similar to the resource collection briefs in that they bring together collections of links around specific topics, but are more focused on resources of use for response and situational awareness. You can access all these pages via the Quick Link Collection Page and changing with the seasons, certain ones are also feature and accessible via our homepage.

Consider becoming a financial supporter of the California Resiliency Alliance (CRA) and gain access to even more
